

This is best system for Music, Wheather, Traffic, and much much more. Its at my fingertips 24 hours a day, 7 days a week. There is nothing like xm radio, hands down. It has made such an impact in my life. One would think how woul that be? But it has. Please don't limit the broadcasting that xm radio provides. The station that I listen to the most is Bluesville on 74. There is not very much to offer in Arizona for Blues music. Not only do they play fantastic music, Every hour they play the forfathers and formothers of blues. And tell the history of their music and information about the artist that I did not know at all. The information is mindblowing. What other system out there does this? NOTHING!!!
